

About Original Schulte ® Mohair

Established in Germany in 1901, Reinhard Schulte, is acknowledged as the world's top manufacturer of mohairs and synthetic furs and their association with Steiff, internationally recognised manufacturer of teddy bears and soft toys, confirms their excellence in this field. Teddytech, as distributors of Schulte mohairs and synthetic furs in Southern Africa, stocks an ever-expanding selection of their quality fabrics.

Did you now that there are several good reasons why Schulte ® Mohair is regarded as the world's finest mohair

★ Schulte produces a limitless number of basic qualities

Regular, dense, sparse, etc. and these are multiplied in variations of the finish, ie tipped, distressed, swirly, curly, antique wavy etc. Add their large range of colours and the possibilities are endless!

★Schulte guarantees its quality in respect of

Colour fastness

Tightly woven 100% cotton back

Abrasion resistance

And the enviro-friendly nature of their product by using ecologically safe materials

★Schulte's technology and know-how make them the leaders in their field

The real challenge in producing quality mohair is in achieving the perfect finish.

Correct colouring, shearing, brushing, and tipping of the mohair requires a great deal of experience and Schulte has more than 100 years experience in the textile industry. Schulte's modern weaving and finishing machines, their large number of highly specialised personnel, and strict quality control carried out at every stage of the manufacturing process, results in an excellent consistency in finish.

Schulte mohair - used by international bear artists in the creation of their award-winning bears!

★How to determine if you are buying Schulte ® mohair

Look for the unmistakable **green identification line** on the selvedge of the mohair.

This is an indication that you're investing in a quality product.

Don't forget to request your free Schulte woven label and card tag to attach to your bear **with every 1/4m purchase**, to indicate the quality and care you have put into creating your bear.

Teddytech's Swatch Cards

Our swatch cards will enable you to 'look and touch' before buying. Attached to preprinted sheets which can be filed for easy reference, they consist of coded swatches showing colour, texture and pile length. Updates of swatches will be available from time to time – check our newsletter for info on these.
